

Stony Brook
University

2026–2027 Partnership Package

WHO WE ARE

The Society of Hispanic Professional Engineers (SHPE) is a national professional organization that aims to empower and support Hispanic students in the STEM fields at a national level. The Stony Brook Student Chapter of SHPE is one of the only active student chapters in Suffolk County, NY, empowering and supporting Hispanics within the local community.

OUR VALUES

SHPE aims to create a world where Hispanics and other minorities are greatly valued, not just in the STEM field, but everywhere they go. We help our members develop their professional skills and achieve their fullest potential through networking events and collaborations with other organizations.

OUR REACH

On campus, SHPE's goal is to mentor and support students who want to improve their professional skills. Students who join SHPE learn how to obtain internships, research, and develop their leadership skills.

WHAT WE DO

Members of our chapter attend a number of events that encourage:

- **Leadership Development:** LeaderSHPE allows our members to connect and network with alumni.
- **Academic Excellence:** Members can attend Study Sessions to assist one another through studying, completing classwork, or tutoring.
- **Chapter Development:** Current chapter members and SHPE alumni get together for dinners and fun events to maintain connections.
- **Professional Development:** At the annual SHPE National Conference, our chapter attends the country's largest Hispanic STEM gathering.
- **Community Outreach:** At Pre-College Day, we ignite curiosity in students to pursue STEM.
